

AKVIS ArtSuite 16: Now with Vignette Effect and Batch Processing!

January 22, 2019 – AKVIS announces the release of ArtSuite 16, a collection of versatile frames and effects for digital photos. Version 16 offers the new Vignette frame that allows concentrating the viewer's eye on the subject. Also, the recent version supports Batch Processing, includes some tool and interface improvements as well as bug fixes.

AKVIS ArtSuite is a photo decoration software that provides an impressive collection of frames and effects for digital photos. There are two effect groups in the program: **Frames** ranging from timeless wooden classics to contemporary designs; and **Effects** that offer a wide array of photo manipulation options. Each effect/frame is fully customizable and is easy to use.

Version 16 offers the new *Vignette* frame. It applies a soft border that gradually fades away so putting the focus on the subject. It is possible to adjust the shape of the vignette, change its color and position.

The new *Batch Processing* feature is extremely useful when making the same edits to multiple files. Also, the recent version offers the enhanced *Eyedropper* tool with a color ring, some interface improvements, and bug fixes.
