

AKVIS Enhancer 16: Revealing Hidden Details in Digital Images

September 27, 2018 – AKVIS announces the release of *Enhancer 16*, a professional image enhancement software. The recent version provides the integrated *Notification Panel*, brings various interface changes including the new *Gray* interface theme and the *Chinese* interface language, offers support for new RAW files, etc.

[AKVIS Enhancer](#) is a powerful image enhancement tool that improves the output quality of digital photos with just a few mouse clicks. It works in three modes: *Prepress*, *Improve Detail*, and *Tone Correction*. Using the software, you can bring out as much detail as possible in both the overexposed and underexposed areas, increase brightness and contrast, adjust tones, optimize an image for printing, and much more.

[Version 16](#) offers the integrated *Notification Panel* that keeps users informed about the latest updates for the product as well as about exclusive offers and promotions.

Also, the recent version provides a number of interface improvements (including the new *Gray* interface theme), support for the *Chinese* interface language, full compatibility with Photoshop CC 2018, support for new RAW files, various bug fixes, etc.

[Download AKVIS Enhancer 16](#) and try all features of the software during the 10-day trial period.

The software runs on Windows XP, Vista, 7, 8, 8.1, 10; Mac OS X 10.7-10.11 and macOS 10.12-10.13. The product is available as a standalone application and as a plugin filter for [AliveColors](#), Adobe Photoshop, Corel Photo-Paint, and [other image editors](#).

AKVIS Enhancer, Home license, sells for \$69. One license key allows activating and using the software on two computers. [Consult the official website](#) for more details about license types and prices of the software.

The software is available as part of the [Photo Correction Bundle](#) which includes 4 programs with a 40% discount.

The update is free for users who bought *Enhancer* in the last 12 months. Users, whose license is older and is not valid for the new version, can get *Enhancer 16* for only \$14.95.

AKVIS ([akvis.com](#)) specializes in the development of video & image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Mac.
