AKVIS NOISE BUSTER 10: INNOVATIVE ALGORITHM & NEW EXCITING FEATURES!

August 30, 2016 — AKVIS is glad to announce the release of AKVIS Noise Buster 10.0, the powerful noise reduction software for Windows and Mac OS X. This latest version offers an advanced noise reducing algorithm, new tools and options, significant user interface enhancements, and other changes.

AKVIS Noise Buster is efficient noise suppression software. It reduces both luminance and color noise on digital images without spoiling other aspects of the photo. You don't need any special skills or knowledge to produce professional results. You can work with automatic settings, select any ready-to-use preset or adjust the parameters manually. Fix your "noisy" photos within seconds!

Version 10.0 introduces a cutting-edge noise reduction technology with the moiré removal feature and new post-processing tools, a redesigned user interface, updated presets, and other usability improvements.

In Version 10:

- **Improved Algorithm & New Features**

The innovative noise reduction algorithm provides advanced capabilities for better processing quality.

The new *Remove Moiré* check-box allows to reduce the moiré patterns in digital images and remove halftone from scanned newspaper photos. The check-box is accompanied by the new *Blur* parameter which regulates the degree of smoothing.

- **New Tools**

The tool range has been extended with the *Smudge* tool and the *Crop* tool.

- **New Presets**

The software brings new built-in presets specially designed to illustrate the new algorithm's performance.

- **New Interface with Support for Ultra HD**

The new version features a modernized user interface with support for Ultra HD 4K & 5K resolution screens. The texts and new vector based icons now scale correctly even on super high resolution monitors.

You can choose between two interface themes: *Dark* and *Light*.

- And other changes.

Download AKVIS Noise Buster 10! For a free trial, AKVIS offers 10 days of fully functional use.

The software runs on Windows XP, Vista, 7, 8, 8.1, 10 and on Mac OS X 10.7-10.11. The product is available as a standalone application and as a plugin filter for Adobe Photoshop and other image editors.

AKVIS Noise Buster, Home license, sells for $49 or €39. Refer to the official website for more details of license types, versions, prices, etc.

It is a free upgrade for *recent* buyers of AKVIS Noise Buster who bought or upgraded the license during the last 12 months. If your license is not valid for the latest version, you can get the new version for only $14.95.

AKVIS (http://akvis.com) specializes in development of image and video processing software. The company was founded in 2004 by IT professionals having considerable experience in programming and software development. Since then the company has released a number of successful programs for Windows and Mac.
