AKVIS WATERCOLOR 1.0: LUMINOUS AQUARELLE ART FROM YOUR PHOTOS!

December 5, 2016 — AKVIS announces the release of its new software product for Windows and Mac, available as a standalone application and as a Photoshop plugin filter. AKVIS Watercolor 1.0 easily makes a photo look like a brilliant and vibrant watercolor painting.

AKVIS presents the brand new artistic program **AKVIS Watercolor** that lets you create amazingly realistic aquarelle paintings in a click!

Watercolor painting is one of the oldest and most commonly used painting techniques in which color pigments are solvable in water. Aquarelle paintings have a brilliant and luminous look based on the clarity and translucency of colors and the flowing fluidity of lines.

Did you ever dream of creating your own masterpiece? Using **AKVIS Watercolor** you can imitate great masters without any painting skills! You only need to adjust the settings to your taste and run the processing. Any ordinary image will turn into a gorgeous aquarelle piece of art!

The software lets you experiment with a wide range of painting genres: from vibrant marine paintings and atmospheric landscapes up to impressive human or animal portraits and exquisite still lifes.

The program is very user friendly and does not require any prior experience. It offers a number of ready-to-use presets that can be used to imitate different watercolor techniques. Kick-start your creativity by trying different presets and paper colors!

Download AKVIS Watercolor 1.0! For a free trial, AKVIS offers 10 days of fully functional use.

The software runs on Windows XP, Vista, 7, 8, 8.1, 10; and on Mac OS X 10.7-10.12. The product is available as a standalone application and as a plugin filter for Photoshop and other popular graphics editors.

AKVIS Watercolor, Home license, sells for $49. One license key allows activating the software on two computers. Visit akvis.com for more details.
