AKVIS LightShop 7.0: Mesmerizing Light & Star Effects! New User-Friendly Features

March 14, 2019 — AKVIS announces the release of LightShop 7.0, a feature-packed software for creating amazing light and star effects. The recent version offers some new auxiliary features, the redesigned New Image dialog, the integrated Notification Panel, the Chinese interface language, support for more RAW files, enhanced stability as well as some bug fixes, etc.

AKVIS LightShop offers cutting-edge techniques for adding stars and glow effects to digital images. The software makes any image more impactful and impressive. Using LightShop, you can easily make an already beautiful sunset photo even more magical, brighten up an image taken in cloudy conditions, imitate a supernova explosion, create a glitter or a jewelry sparkle effect, and much more. The program offers a wide range of ready-to-use presets to choose from and even allows creating an infinite number of effects from scratch.

Version 7.0 offers new auxiliary features: the *Show/Hide Effect* button that shows/hides the light effect and the *Clear* button in the Elements panel that removes all the elements in the list.

The *New Image* dialog has been reworked and now offers new preset categories (*Photo*, *Web*, *Film & Video*).

Also, the recent version provides the integrated *Notification Panel*, the separate *Publishing Module*, support for more RAW files, the *Chinese* interface language, increased stability as well as some interface improvements and bug fixes.

Download AKVIS LightShop 7.0 and try all features of the software during the 10-day trial period.

The software runs on Windows 7, 8, 8.1, 10 - 32-bit, 64-bit; Mac OS X 10.11 and macOS 10.12-10.14 - 64-bit. The product is available as a standalone application and as a plugin filter for AliveColors, Adobe Photoshop, Corel Photo-Paint, and other image editors.

AKVIS LightShop, Home license, sells for $72. One license key allows activating and using the software on two computers. Consult the official website for more details about license types and prices of the software.

The update is free for users who bought LightShop in the last 12 months. Users, whose license is older and is not valid for the new version, can get LightShop 7.0 for only $14.95.

AKVIS (akvis.com) specializes in the development of video & image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Mac.
