The ArtSuite software lets you easily frame your photographs. You can add extra themed frame packs to the program to increase its functionality and enrich the built-in Library.

The ready-to-use photo frames save you time and efforts and grant high quality results. With the release of the new set, **[18 themed packs](#)** are now available for ArtSuite.

The new frame collection is an ideal choice for any animal lover. Frame your pet's photos!

The **[Pets Pack](#)** includes 60 hand painted frames of excellent quality for photographs of your pets. You can **[preview the new frames](#)** in the official web-site.

We feel deep affection towards our cats, dogs, fish, parrots, and other pets; we pamper them and treat them like full members of our family. We like to share their photos with friends, we set them as wallpaper on a phone screen or just put on a bookshelf.

This unique set of frames is designed specifically for pictures of domestic animals and pets. You can frame photos of your pet with nature decorations, surround it by furry and feathered friends, by its favorite toys, food and treats.

The field of application of the frames extends beyond pets images. These funny, lively, amusing designs can be used for decorating any photos, for example, for pictures of your baby or shots from a themed party; or for preparing invitations to exhibitions, tradeshows, and fairs.

Professional photographers can take advantage of the new frame collection as well.

Note that the frame packs can only be used in the AKVIS ArtSuite Standalone program. To add a frame pack to ArtSuite, just copy it into a folder selected in the program's preferences.

**AKVIS ArtSuite**, with all its frame packs, runs on Windows XP/Vista/Win 7/Win 8 and on Mac OS X 10.6-10.10. The program is available for the **[10-day trial period](#)** free of charge.

The ArtSuite Standalone Application sells for \$69; the price of the new frame pack is \$15.
